# PARTICULATE MATTER ( $PM_{2.5}$ ) CONCENTRATION FORECASTING THROUGH AN ARTIFICIAL NEURAL NETWORK IN PORT CITY ENVIRONMENT

BÁRBARA A. MACIAS-HERNANDEZ

EDGAR TELLO-LEAL

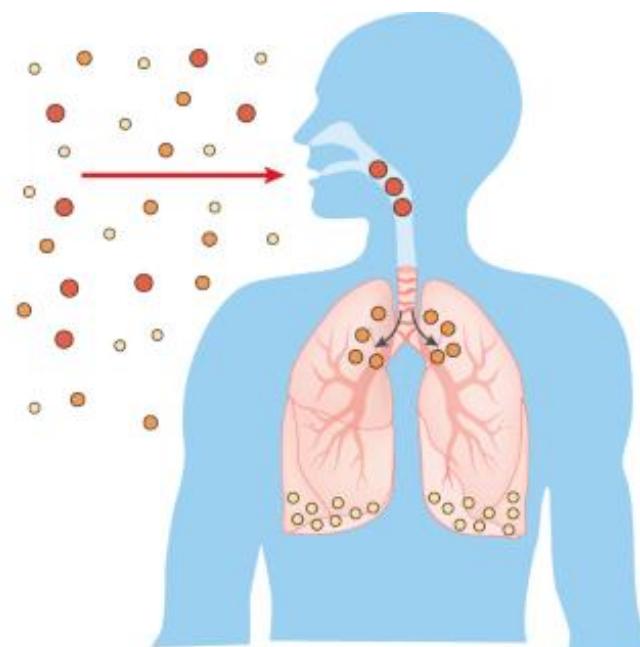

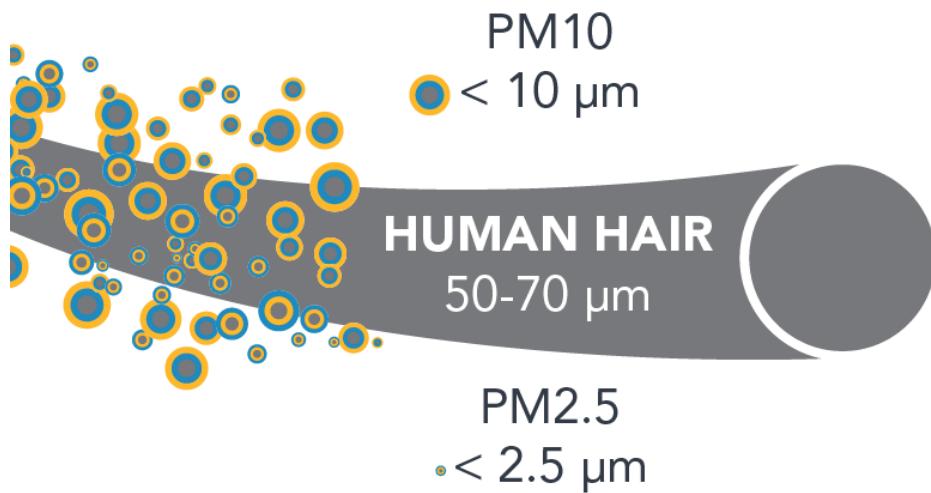

ULISES M. RAMIREZ-ALCOCER

JACIEL D. HERNANDEZ RESENDIZ

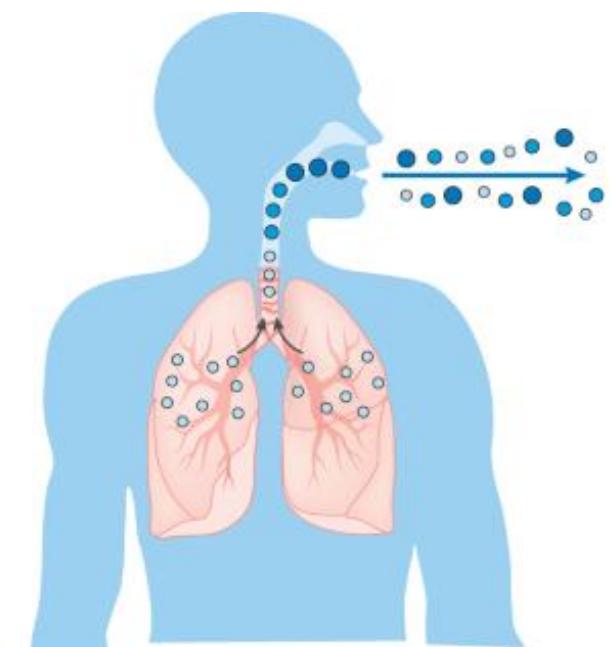

# INTRODUCTION

# PARTICULATE MATTER PM<sub>2.5</sub>

- 0.1 µm particle deposited in the alveolar region
- 2.5 µm particle deposited in the lung
- 10 µm particle deposited in the mouth

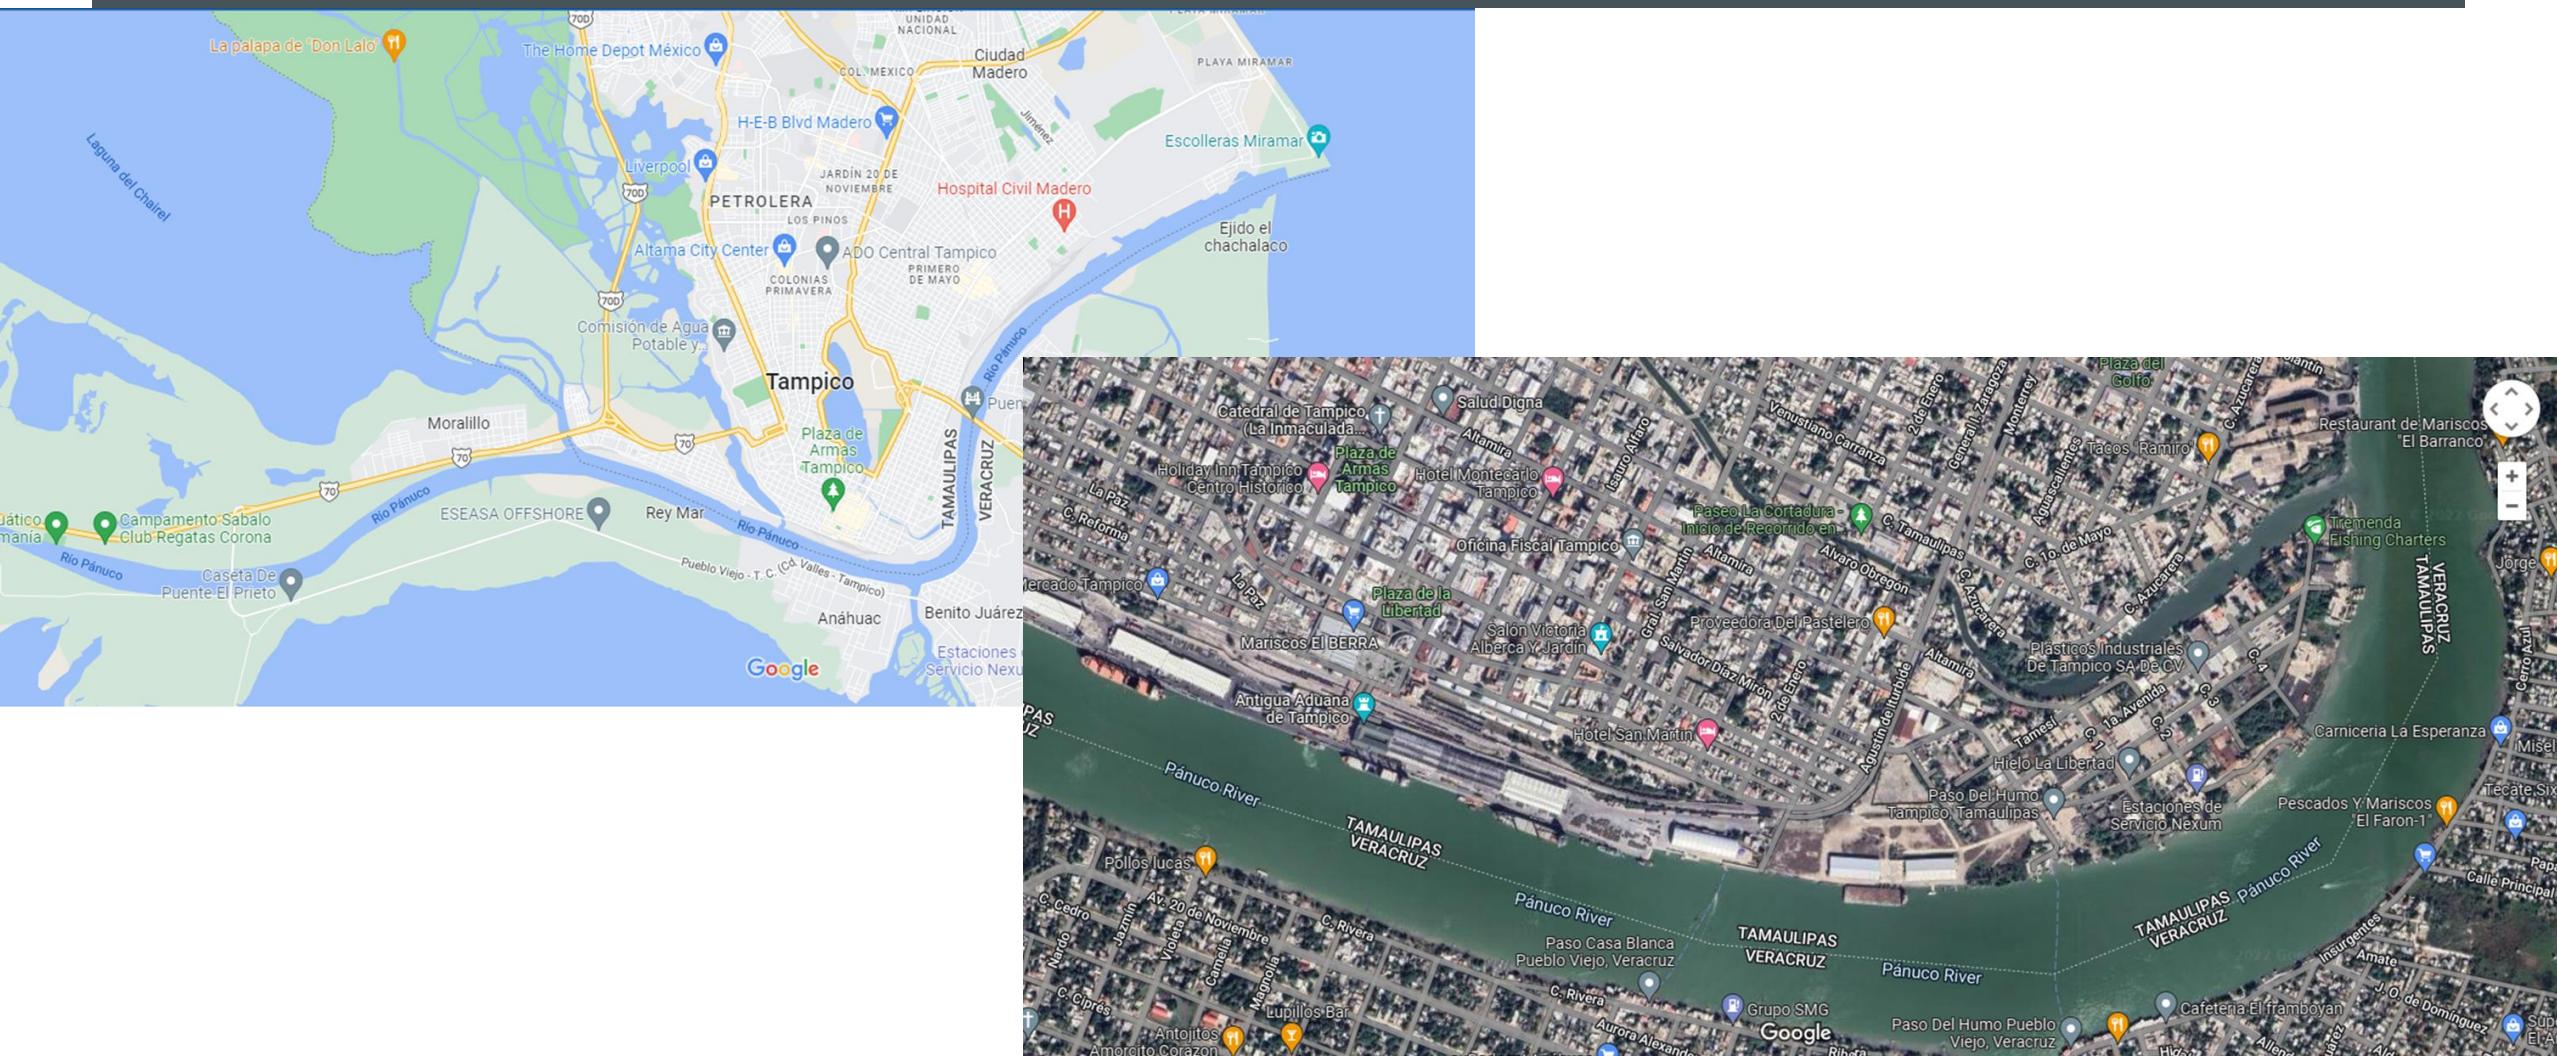

- 1 µm particle generated in the bronchioles
- 5 µm particle generated in the larynx
- 50 µm particle generated in the mouth

## OBJETIVE

This study aims to analyze maritime traffic's effect on air quality through multiple regression analysis using recurrent neural networks (RNN), allowing to forecast the daily concentration of PM<sub>2.5</sub>.

# STUDY AREA

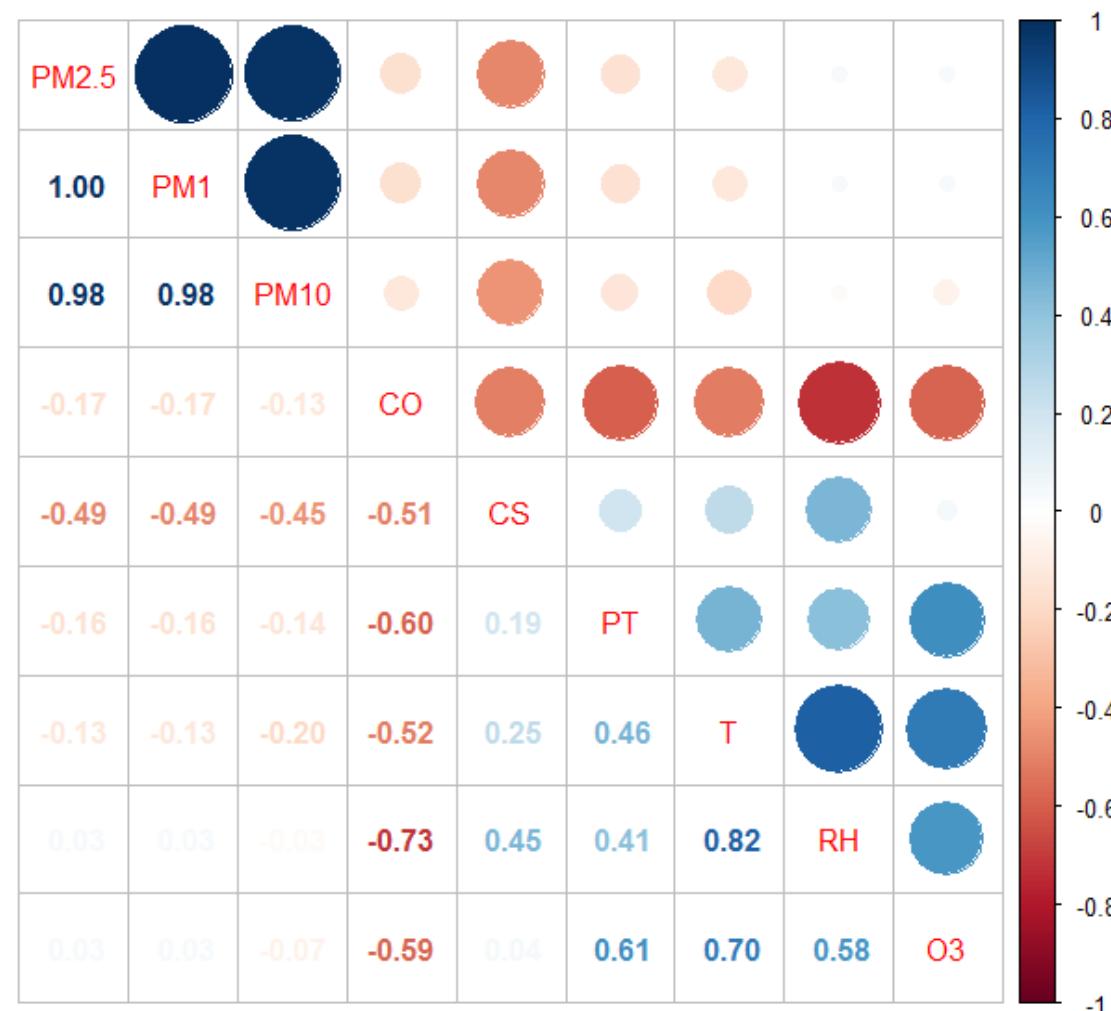

*Descriptive Statistics Of Particulate Matter ( $PM_1$ ,  $PM_{2.5}$  And  $PM_{10}$ ) Monitored For A Period Of 9 Months in Tampico Tamaulipas In  $\mu\text{g}/\text{m}^3$*

| 2021             | $PM_1$ ( $\mu\text{g}/\text{m}^3$ ) |      |       |      | $PM_{2.5}$ ( $\mu\text{g}/\text{m}^3$ ) |      |       |      | $PM_{10}$ ( $\mu\text{g}/\text{m}^3$ ) |      |       |      |  |

# Correlation Matrix Of Air Pollutants, Meteorological Variables, And Daily Cargo Ship (CS) And Petrol Tankers (PT) Arrivals

Prediction Accuracy Comparison Between Actual And Predicted Data (Blue Line: Original Values, Red Line: Predicted Values).

## CONCLUSIONS

- Correlation coefficient analysis confirmed a very high relationship between the three types of particulate matter.
- CO air pollutnat presents a high negative association with relative humidity.
- Cargo ships show a moderate negative relationship with  $\text{PM}_1$ ,  $\text{PM}_{2.5}$ ,  $\text{PM}_{10}$ , and CO.
- The petroleum tankers have a moderately negative relationship with CO ( $r=-0.60$ ).
- Linear regression analysis generated by the RNN prediction model obtains acceptable RMSE and MAE values.
- High MAPE metric, the daily prediction of  $\text{PM}_{2.5}$  concentration should be considered with performance and accuracy moderate.
