

## The 5th International Electronic Conference on Remote Sensing — Change of Authorship Form

Manuscript ID: sciforum-077226

Manuscript Title: Improving up-close Remote Sensing occluded areas in Vine-yards through customized multiple UAV Path Planning

Description of the change: new author have been added;

### Original Authorship

LIST ALL AUTHORS in the same order as the original (first) submission. For more than 10 use an extra sheet.

	Name	Affiliation
author (1)	Mar Ariza-Sentís	Information Technology Group, Wageningen University & Research, 6708 PB Wageningen, Netherlands
author (2)	Sergio Vélez	Information Technology Group, Wageningen University & Research, 6708 PB Wageningen, Netherlands
author (3)	Roberto G. Valenti	Advanced Research and Technology Office, MathWorks, Natick, MA 01760, USA.
author (4)	João Valente <sup>1</sup>	Information Technology Group, Wageningen University & Research, 6708 PB Wageningen, Netherlands

### New Authorship

All authors must sign below agreeing to the new changes in authorship. The authorship order must match the new title page of the manuscript. Signatures below certify compliance with the author responsibilities on the next page. List ALL AUTHORS in the same order as the new version.

Author's Contribution
author (1) Conceptualization, data curation, formal analysis, investigation, methodology, software, validation, visualization, writing original draft
author (2) Conceptualization, data curation, formal analysis, investigation, methodology, supervision, validation, visualization, writing review & editing
author (3) Conceptualization, data curation, formal analysis, investigation, methodology, validation, visualization, writing review & editing
author (4) Conceptualization, data curation, formal analysis, investigation, methodology, project administration, resources, supervision, validation, visualization, writing review & editing

#### Contributor Roles Taxonomy (CRediT)

Conceptualization	Ideas; formulation or evolution of overarching research goals and aims.
Data curation	Management activities to annotate (produce metadata), scrub data and maintain research data (including software code, where it is necessary for interpreting the data itself) for initial use and later re-use.
Formal analysis	Application of statistical, mathematical, computational, or other formal techniques to analyze or synthesize study data.
Funding acquisition	Acquisition of the financial support for the project leading to this publication.
Investigation	Conducting a research and investigation process, specifically performing the experiments, or data/evidence collection.
Methodology	Development or design of methodology; creation of models.
Project administration	Management and coordination responsibility for the research activity planning and execution.
Resources	Provision of study materials, reagents, materials, patients, laboratory samples, animals, instrumentation, computing resources, or other analysis tools.
Software	Programming, software development; designing computer programs; implementation of the computer code and supporting algorithms; testing of existing code components.

Supervision	Oversight and leadership responsibility for the research activity planning and execution, including mentorship external to the core team.
Validation	Verification, whether as a part of the activity or separate, of the overall replication/reproducibility of results/experiments and other research outputs.
Visualization	Preparation, creation and/or presentation of the published work, specifically visualization/data presentation.
Writing - original draft	Preparation, creation and/or presentation of the published work, specifically writing the initial draft (including substantive translation).
Writing - review & editing	Preparation, creation and/or presentation of the published work by those from the original research group, specifically critical review, commentary or revision – including pre- or post-publication stages.
