

# RUS: A new expert service for Sentinel users

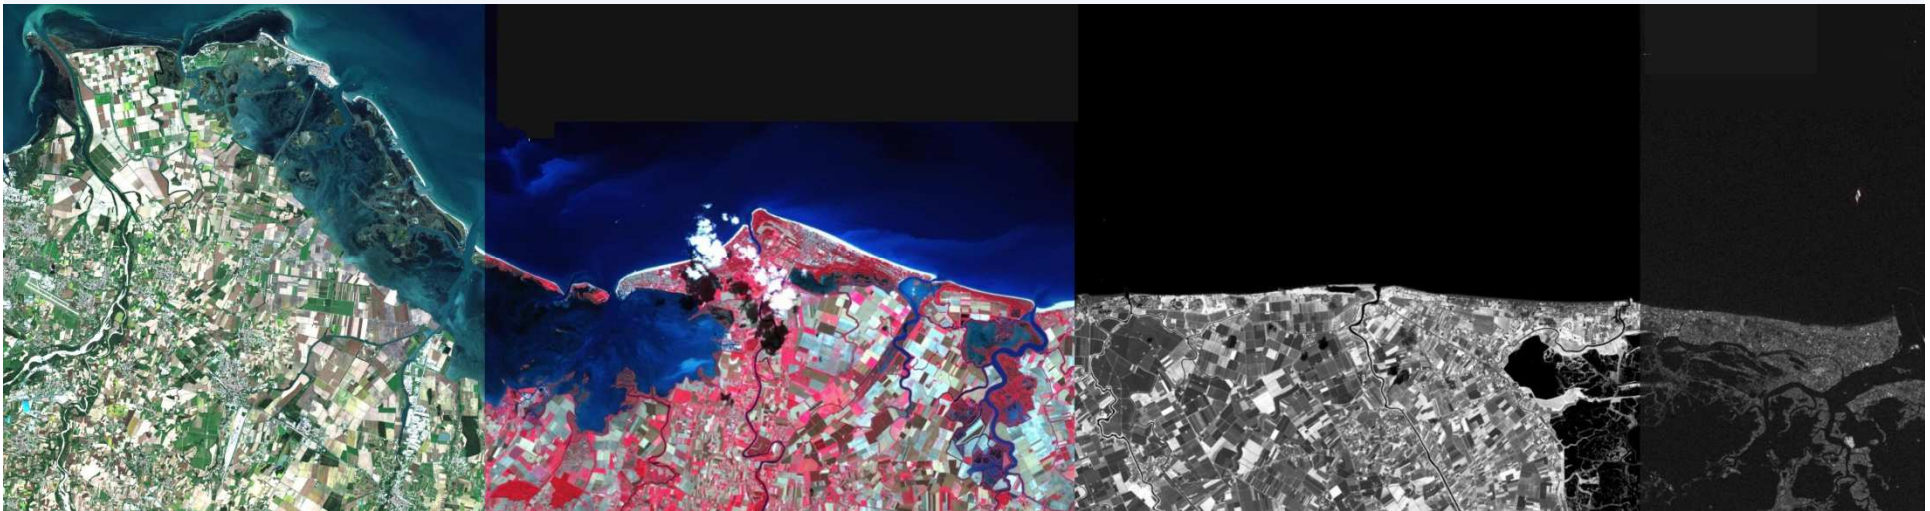

Research and User Support for Sentinel Core Products

Freely available to everyone,  
from first-time data users to specialist users  
such as researchers, scientists, trainers,  
decision-makers and public authorities

A support team with a strong experience on Earth observation applications and Sentinel sensors to help users tap into and exploit Sentinel data resources

- Access to a powerful computing environment based on scalable virtual machines
- Personalized advice and assistance
- Hands-on trainings and Webinars

Access via online registration:
