LAST DAY FOR SUBMITTING COMMUNICATIONS 2018-Dec-22

ONLINE DISCUSSION FORUM OPEN FROM 2018-Dec-23 TO 2019-Jan-05

Dear colleagues worldwide, we are glad to invite you to MOL2NET-04, International Conference on Multidisciplinary Sciences, **ISSN**: 2624-5078, **ISBN**: 978-3-03842-820-6, MDPI SciForum, Basel, Switzerland, 2018. MOL2NET is a **year-round conference series** with multiple **associated workshops worldwide** running and open to submissions almost all the year, please read [[Workshops Schedule](#)]. The **topics of interest** include, but are not limited to, **Chemistry (All areas), Mathematics (Applied), Physics (Applied), Materials Science, Nanotechnology, Biology and Life Sciences (All areas), Medicine, Biomedical Engineering, Education**, along with **Computer Sciences, Data Analysis, Statistics, Artificial Intelligence, Deep Learning, Bioinformatics, Systems Biology, and Complex Networks Sciences**. We suggest you to **download** the [[Template File](#)] to write your communication and to **read carefully** the [[Instructions to authors](#)] about publication model, copyright, authors responsibilities, *etc.*

Headquarters and Supporters

MOL2NET runs both online and/or in person workshops in **host universities worldwide** and at the [SciForum](#) platform maintained by the editorial [MDPI](#), Basel, Switzerland. The Scientific Headquarters (HQs) of this conference series are in the [Faculty of Science and Technology, University of Basque Country \(UPV/EHU\)](#), Biscay. However, the idea of this multidisciplinary conference emerged from the melting pot formed as the result of multiple collaborations of professors from many centers worldwide. Locally, the founders and strongest supporters of the conference are professors endowed by [IKERBASQUE](#), [Basque Foundation for Sciences](#), professors from the two departments [Department of Organic Chemistry I](#) and [Department of Organic Chemistry II](#) of the [University of Basque Country \(UPV/EHU\)](#), and professors from the [Department of Computer Sciences](#) of the [University of Coruña \(UDC\)](#).

Internationally, professors from [Dept of Biological Chemistry & Molecular Pharmacology \(BCMP\), Harvard Medical School, USA](#); the [Center for the Study of Biological Complexity of the Virginia Commonwealth University \(VCU\), USA](#); the [Natural Resources Research Institute, of the University of Minnesota, USA](#); [CNRS-Université Paris-Sud, Paris, France](#), and other institutions are also founders and/or supporters of this conference, please see full committees lists [[Honor Committee](#)] [[Co-Chairs Committee](#)] [[Scientific Committee \(Abroad\)](#)] [[Scientific Committee \(Local\)](#)] and [[MOL2NET-IKERBASQUE Staff](#)].

Conference Lemma

The acronym MOL2NET summarizes the running title of this conference: **FROM MOLECULES TO NETWORKS**. This lemma is inspired by the possibility of spreading the knowledge about multiple topics by promoting multidisciplinary collaborations in science with conferences including topics ranging from quantum world to large social networks. In this sense, the spirit of this conference is in consonance with the lemma **EMAN TA ZABAL ZAZU** (Give and extend knowledge). This anthem from the 19th century is written in [Basque language \(Euskera\)](#) and is used now a days as the official motto of the [University of Basque Country \(UPV/EHU\)](#).

Sessions & Workshops

01. Welcome Message & Proceedings

02. SRI-10: Summer Research Inst. Symp. (Chemistry, Phys., Med., Nano., Bioinf., etc.), MDC, Miami, FL, USA, 2018

03. USINEWS-02: US-IN-EU World. Science Workshop Series (Chem., Phys., Omics., Nano., etc.), UMN, Duluth, USA, 2018

04. BIOCHEMPHYS-01: International Workshop (Med. Chem., Biotech., Phys. Chem.), CNAM, Paris, France, 2018

05. WCUCW-02: West Coast Univ. Capstone Workshop (Chem., Bioinf., Med., etc.), WCU, Miami, USA, 2018

06. WRSAMC-03: Workshop in Med. Chem. (Org. Chem., Nat. Prod., etc.), UFPB, Paraiba, Brasil, 2018

07. EJIBCE-02: Meeting in Struct. Comput. Biol. (Bioinf., Med. Chem., etc.), UPORTO, Portugal, 2018

08. OTISAD-01: Workshop on Intell. Decis. & Opt. (Systems, Data Analysis, etc.), UANL, Mexico, 2018

09. ICBSM-02: International Conf. (Bioinf., Simul., Data Analysis, & Mod.), UTALCA, Talca, Chile, 2017

10. IWMEDIC-06: Int. Workshop in Med. Info. (Image Proc., Data Sci., etc.), UDC, Coruña, Spain, 2018

11. IWIMSM-02: Iberoamerican Workshop on Model. & Simul. Meth., Valencia, Spain, 2018

12. LAWSCI-02: Challenges in Law, Tech., Life, and Soc. Sci., UPV/EHU, Bilbao, Spain, 2018

13. AWP-04: Academic Week of Physics, UNIFAL-MG, Alfenas, Brazil, 2018

14. MODEC-03: Workshop on Nat. Prod. & Agro. Proce. in Amazon, UEA, Ecuador, 2018

Steps for Participation

(0) Register, Sign in/Login, to Sciforum platform [[Sciforum login](#)]

(1) Submit the title and abstract, select a section or workshop (do not upload paper here) [[Submit New Abstract](#)]

(2) Wait for Sciforum abstract acceptance email, follow the link, and/or login to upload paper, doc and pdf format

(3) Download template doc to prepare your communication, for general sessions: [[Mol2Net Template](#)], or use the for other workshops: [[BioChemPhys Template](#)], [[WRSAMC template](#)] , [[MODEC Template](#)], [[AWP-04 Template](#)]

(4) Wait for paper acceptance and publication emails (follow link to proofread your paper) (Asap after upload)

(5) Communicate with chairpersons if corrections are necessary, including past editions (All the year)

(6) Log in to post comments, questions, or answers in a section or one of the workshops

(7) Contact chairpersons if you need author (publication) or attendance (posting) certificate for conference and/or workshops (All the year)

Workshops Schedule

General Schedule: MOL2NET International Conference Series on Multidisciplinary Sciences, MDPI Sciforum, Basel, Switzerland has online and/or in person workshops (>10) associated. The conference usually **runs online** at the online platform [SciForum](#) maintained by the editorial [MDPI](#), Basel, Switzerland. The **platform is open on a year-round basis** almost all the days of the year in course. We have this modality for practical reasons; e.g., accommodation of many workshops in different dates along the year, flexible reception of communications, etc.

Submission and Publication of communications: As we mentioned before, in the practice, the online platform is open at the beginning of the year in course and continue open all the year for submissions of communications. However, the associated workshops may open in different dates along the year (see specific workshop pages). Submission of papers to all workshops is open until the last days of the year in course or the first days of the following. The **publication of communications** is continuous all the year upon acceptance.

Schedule for Online participation: After publication of papers is closed we open the online platform for online participation. The authors will be able to post online comments and/or answers to comments in this workshop/section and also in the other general sections and/or >10 international workshops of the MOL2NET conference (many of them also run both online and in person). The participants are entitled to receive participation certificates for MOL2NET conference and all the workshops they participate upon request to the respective chairpersons. See committees of MOL2NET and each workshop.

Schedule for in person participation: Many of the workshops associated to MOL2NET are going to be held also **in person (face-to-face)** in different universities of USA, Spain, Italy, Mexico, Chile, etc. This in person workshops have specific schedules in parallel to their online versions. Please, go to the homepages of these workshops and/or contact their chairpersons for further details.

Notes for participants: MOL2NET conference runs both online (general sections) and/or in person (associated workshops). No physical presence is needed for online participation saving traveling costs. We accept experimental works, theoretical works, or experimental-theoretic works in the areas mentioned. Proceedings will be Published Online, Open Access, and **Totally Free of Charges** (no cost). For details about in person (face-to-face) participation on associated workshops contact the respective members of the local committees.

Types of communications

Before to submit your communication recommend to download and use the [\[Template File\]](#) to write your communication; we strongly recommend you to read carefully the following information about publication model, copyright, authors responsibilities, etc Firstly, be aware that the works published here belongs to two main modalities preliminary communications or comments on previous works.

Preprints. These are short communications of unpublished results but they are not post-print journal papers. In this sense, committee and/or external reviewers check only scope and apparent scientific soundness. They have the same editorial process than for an online [Preprint](#) service. Therefore, all works receive doi number and are indexed in databases (GoogleScholar, Publons, etc.).The works may receive also comments from registered participants (public post-publication review). The authors are encouraged to submit their works to a peer-reviewed scientific journals of MDPI or other editorials during or after finalization of the conference, as per [SciForum copyright rules](#).

Research Highlights. These short communications are comments on already published papers. They are short notes to comment about the more interesting points, highlights, etc. of works previously published by the authors or

other groups. In this case, committee and/or external reviewers check also only scope and apparent scientific soundness. The works may receive also comments from registered participants (public post-publication review).

Authors liability

In all cases, **is responsibility of authors**, to perform a **checking similarity**, ensure **veracity of contents**, and carry out a **proper citation of previous works**. The **committee is not responsible of the previous aspects** in this publishing modality. Consequently, the opinions expressed on the communications are not necessarily coincident to the opinions of the members of the committees. In this sense, we strongly recommend the authors to **use online text-similarity checking services**. These tools may help authors to **avoid any form of plagiarism or copyright violation**. The authors may be requested to modify the communication (re-write their texts) in the case that high similarity is detected and reported to the committee. In these cases, the manuscript could be put on standby or withdrawn temporarily until the authors re-submit the proper version. The authors are also allowed to submit short reviews, comments, letters, or discussions of papers already published if they guarantee sufficient difference to previous public contents.

Call for Collaborators, Editors, Chairpersons, Sponsors

[EN] We sincerely invite you to join MOL2NET Conference Series or one of the worldwide associated workshops; please, sent a direct email to the chairperson: Prof. [González-Díaz H.](#), IKERBASQUE Professor, Email: mol2net.chair@gmail.com. You are encouraged to nominating and/or personally applying for a position or active role in some of the following modalities, or other modalities of collaboration suggested by you:

- (1) Committee membership (nomination or personal application for membership in honor, steering, or scientific committees).
- (2) Guest-Editor of JCR MDPI journal issue (help to propose, editing, announce your special issue in one of the MDPI journals).
- (3) Chairperson of workshop (publishing an online or in person workshop of your institution with you as chairperson).
- (4) Sponsor of conference (including logo, description, flyer, and link to homepage of your institution).
- (5) Speaker (publication of video conferences with cover poster, issn, isbn, and doi number).

MDPI Journals Issues (Organized by MOL2NET Committee Members)

In parallel, the members of committees and/or authors are encouraged to edit special issues for different journals of the editorial MDPI (<http://www.mdpi.com/>). The special issue is now in call for papers, submissions are welcome in a *posteriori*, in parallel, or totally independently from the conference. Manuscripts should be submitted online at www.mdpi.com by [registering](#) and [logging in to this website](#). In order to send a proposal of associated workshop and/or special issue contact the chairperson of the conference Prof. [González-Díaz H.](#) Please, check the following list of past and present special issues associated to our conference:

nanomaterials

Nanomaterials (Published): Special issue entitled: *Experimental Nanosciences, Computational Chemistry, and Data Analysis*. Journal *Nanomaterials* (ISSN 2079-4991), **JCR IF = 3.55**. Editors: Prof. *González-Díaz H*, UPV/EHU, Spain, Prof. *B. Rasulev*, NDSU, USA, Dr. *Shameer Khader*, Philips, Cambridge, MA, USA, Prof. *H. Kušić*, UZ, Croatia.

International Journal of *Molecular Sciences*

IJMS (Published): Special issue entitled: *Data Analysis in Molecular Sciences*. Journal: *International Journal of Molecular Sciences* (ISSN 1422-0067), **JCR IF = 3.257**. Topics: Cheminformatics, Computational Chemistry, Bioinformatics, Data Analysis, Proteomics, Biological Networks, Editors: Prof. *González-Díaz H*, University of the Basque Country UPV/EHU, Biscay, Spain. Prof. *R. Todeschini*, University of Milano-Bicocca, Italy, Prof. *A. Pazos Sierra*, University of Coruña UDC, Spain, Prof. *S. Arrasate*, University of the Basque Country (UPV/EHU), Biscay, Spain.

entropy

Entropy (Call for Papers): Special issue entitled: **Biological Statistical Mechanics**. Journal *Entropy* (ISSN 1099-4300), **JCR IF = 1.821**. Topics: cell differentiation, biocomplexity, order and organization, ecology, epidemics, correlation dynamics, complex networks, systems biology. Editors: Prof. *Alessandro Giuliani*, Environment and Health Department, Istituto Superiore di Sanità, Roma 00161, Italy. Prof. *Mariano Bizzarri*, Department of Experimental Medicine, Systems Biology Group Lab, Sapienza University of Rome, Rome, Italy.

Entropy (Call for Papers): Special issue entitled *Graph and Network Entropies*. Journal *Entropy* (ISSN 1099-4300), **JCR IF = 1.821**. Topics: network sciences; walk entropies; algebraic graph theory; spectral methods; matrix functions. Editor: Prof. Dr. *Ernesto Estrada*, Department of Mathematics & Statistics, University of Strathclyde, Glasgow G11XQ, UK.

molecules

Molecules (Call For Papers): Special Issue: **GPCR Mechanism and Drug Design**. Journal: *Molecules* (ISSN 1420-3049), **JCR IF = 3.098**. Topics: data science; drug design and discovery; computational chemistry; structural biology; molecular modeling; molecular docking; computational mutagenesis; G-protein-coupled receptors; protein-protein interactions; protein-ligand interactions. Editor: Dr. *Irina Moreira*, Email: irina.moreira@cnc.uc.pt, Center for

Neuroscience and Cell Biology (CNC), University of Coimbra (UC), Portugal. Workshop Associated: [EJIBCE](#), Encontro de Jovens Investigadores de Biologia Computacional e Estrutural, Portugal, 2018.

Molecules (Call For Papers): Special Issue: **Structure and Function of Metalloenzymes**. Journal: *Molecules* (ISSN 1420-3049), **JCR IF = 3.098**. Topics: catalytic power of enzymes; computer-aided drug design; bio-desulfurization; computational methods in chemistry and biochemistry; metalloenzymes; biological membranes; docking and virtual screening; computational enzymatic catalysis. Editor: Dr. [Sérgio Filipe Sousa](#), Email: sergiofsousa@med.up.pt, UCIBIO/REQUIMTE, BioSIM - Departamento de BioMedicina, Faculdade de Medicina da Universidade do Porto, Porto, Portugal. Workshop Associated: [EJIBCE](#), Encontro de Jovens Investigadores de Biologia Computacional e Estrutural, Portugal, 2018.

applied sciences

Applied Sciences (Call for Papers): Special issue entitled: **Complex Networks and Machine Learning: From Molecular to Social Sciences**. Journal Applied Sciences (ISSN 2076-3417), **JCR IF = 1.679**. Topics: machine learning, complex networks, systems biology, protein networks, metabolic networks, ecosystems, artificial neural networks, social, financial, and legal networks. Editors: Prof. [Maykel Cruz-Monteagudo](#), Email: mCruz@westcoastuniversity.edu, West Coast University, Miami Campus, FL, USA, Prof. Dr. [David Quesada](#), Director of Dept. of Mathematics, Miami Dade College (MDC), Miami, FL, USA. Email: dquesada@mdc.edu, Prof. [González-Díaz H.](#), IKERBASQUE Professor, Dept. of Organic Chemistry II, University of the Basque Country UPV/EHU, 48940, Leioa, Biscay, Spain. Email: mol2net.chair@gmail.com

Associated Workshops

In addition, you can participate both online or in person (face-to-face) in some of the workshops we organize in different universities worldwide (see workshops section). Publication of all communications of the workshops will be also online via the platform SciForum. We welcome proposals for organization of workshops in different universities. Please, do not hesitate to contact conference chairperson and/or scientific committee presidents. Some of the workshops planned to be held in 2018 edition are: [SRI-10](#), St. Thomas University (STU) and Miami Dade College (MDC), Miami, FL, USA (Multidisciplinary Sciences); [WCUCW-02](#), West Coast University (WCU), Miami, FL, USA (Multidisciplinary Sciences); [WMCUP-01](#), University of Padova (UP), Padova, Italy (Medicinal Chemistry); [LAWSCI-01](#), University of the Basque Country UPV/EHU, Bilbao, Spain (TICs, Bioethics, Social, and Legal Sciences), etc.; see other workshops in the list of sections at left panel.

Past Editions

[MOL2NET-03](#), the 3rd edition of this conference series, was held in **2017**. This conference received >250 communications, submitted by >450 authors registered, and included >10 workshops in: [USA](#), [Spain](#), [Portugal](#), [Brazil](#), etc.. Some of the world top universities and centers represented in the lists of committee members and/or authors were: **Harvard** Medical School, Boston, USA; **Stanford** School of Medicine, USA; **Virginia** Commonwealth University (VCU), USA; University of **Minnesota Duluth**, MN, USA; Conservatoire National des Arts et Métiers, **CNAM Paris**, France; University of **Pennsylvania**, USA; **Miami Dade** Collegue (MDC), USA; **EMBL-EBI** European Bioinformatics Institute, Cambridge, UK; **CAS** Chinese Academy of Science, China; **ZJU** Zhejiang University, China.

MOL2NET-02, the 2nd edition of this conference series, was held in 2016. This 2nd conference published 150 communications of 400+ authors 30+ universities of 20+ countries. Some of the world top universities and centers represented in the lists of committee members and/or authors were: Harvard Medical School, Boston, USA; Stanford School of Medicine, USA; Virginia Commonwealth University (VCU), USA; University of Minnesota Duluth, MN, USA; Conservatoire National des Arts et Métiers, CNAM Paris, France; University of Pennsylvania, USA; Miami Dade Collegue (MDC), USA; EMBL-EBI European Bioinformatics Institute, Cambridge, UK; CAS Chinese Academy of Science, China; ZJU Zhejiang University, China.

MOL2NET-01, the first edition of this conference series, was held in 2015. This first conference attracted more than 100 papers and 300+ authors and/or committee members representing 30+ universities of 20+ countries. Some of the world top universities and centers represented in the lists of committee members and/or authors were: Harvard Medical School, Boston, USA; Stanford School of Medicine, USA; Virginia Commonwealth University (VCU), USA; University of Minnesota Duluth, MN, USA; Conservatoire National des Arts et Métiers, CNAM Paris, France; University of Pennsylvania, USA; Miller School of Medicine, University of Miami, USA; EMBL-EBI European Bioinformatics Institute, Cambridge, UK; CAS Chinese Academy of Science, China; ZJU Zhejiang University, China.

People, Media Channels, and Social Networks

We are uploading flyers and promotional videos (in different languages) to the MOL2NET accounts in different social networks such as: **FACEBOOK** group with **>10000 followers**; **RESEARCHGATE** project, **LINKEDIN**, and **TWITTER** account @mol2net. In addition, we have uploaded topic-specific pages with lists of contacts of people related to the conference. In this page you can find people with research interests focused on one specific area such as Organic Chemistry, Computational Chemistry, Materials or Nanoscience, etc.

Influences & Sister Conferences

MOL2NET conference series is inspired on various Sciforum conference series, specially on the **ECSOC** Electronic Conference Series in Organic Chemistry organized during more than 20 years (22nd edition in 2018) by Prof. **Julio Seijas** at Department of Organic Chemistry, Faculty of Sciences, Campus Lugo, University of Santiago de Compostela (USC), Spain. In consonance, we are glad to list Prof. Seijas in the scientific committee of MOL2NET and we invite all colleagues to participate also in ECSOC conference. In addition, MOL2NET committee members would like to recommend other conferences with some topics in common such as: **IWBBIO**, International Work-Conference on Bioinformatics and Biomedical Engineering, Chairperson: Prof. **Ignacio Rojas**, et al., University of Granada, 2018 edition. **NetSci**: International School and Conference on Network Science.

THANK YOU FOR YOUR SUPPORT!!!

Sincerely yours

MOL2NET Chairman

Honor Advisory Committee

The image shows the top portion of the IKERBASQUE website. The header includes navigation links for 'Arabako Campusa', 'Bizkaiko Campusa', and 'Gipuzkoako Campusa', along with a 'Hasi saioa' button. The main navigation bar lists 'Euskara', 'Español', 'Unibertsitatearen Nazioarteko Ikasketak', 'Egitura', 'Ikerketa', 'Unibertsitate sartzeko bideak', 'Alorrak', 'Zerbitzuak', and 'Langileak'. The central logo reads 'ikerbasque Basque Foundation for Science' and 'Kimika Fakultatea'. Below the navigation is a large photograph of a modern university building with a green lawn in front. To the right of the building is a portrait of Prof. Fernando P. Cossío Mora, a man with glasses wearing a suit and tie.

Prof. Fernando P. Cossío Mora

Prof. F.P. Cossío, (IKERBASQUE Foundation President), Prof. Dept. of Organic Chemistry I, University of Basque Country (UPV/EHU), Donostia - San Sebastián Campus, Gipuzkoa.

The image shows the top portion of the BCMP website. The header includes the BCMP logo and the text 'Department of Biological Chemistry & Molecular Pharmacology'. A navigation menu on the left lists: HOME, ABOUT US, PEOPLE, RESEARCH AREAS, RECENT PUBLICATIONS, EDUCATION & TRAINING, SUMMER INTERNSHIP, ADMINISTRATION & FINANCE, FACILITIES & SERVICES. The main content area features a photograph of a classical building with columns, likely a Harvard Medical School building, and a portrait of Prof. James J. Chou, a man in a suit and tie.

Das Institut für Chemie stellt sich vor!

Die Chemie steht im Zentrum der Naturwissenschaften.
 Unser Verständnis der materiellen Welt beruht im Wesentlichen auf dem Wissen aus den Chemiegebieten, die üblicherweise als Anorganische, Organische, Physikalische oder Theoretische Chemie bezeichnet werden.

Aber die Chemie ist auch zentraler Bauteil in fachübergreifenden Disziplinen wie Analytik, Biochemie, Biotechnologie, Materialwissenschaften, Medizin, Mineralogie, Molekularbiologie, Pharmazie, Physik und technischer Chemie. Diese Breite spiegelt sich auch in der Forschung an unserem Institut wider.

02. SRI-10: Summer Research Institute Symposium, MDC, Miami, FL, USA, 2018

NOTES: Before to submit your communication we strongly recommend to read to read carefully the **notes to participants** at the end of the welcome message and/or the notes in the following page [[Notes to authors](#)] about publication model, copyright, authors responsibilities, etc.

Submit Now 

[[CLICK HERE TO SUBMIT NEW ABSTRACT](#)]
LAST SUBMITTING DAY FOR COMMUNICATIONS 15/12/2018
ONLINE DISCUSSIONS OPEN 15/12/2018 - 25/12/2018

Welcome Message

Dear colleagues worldwide welcome to the Summer Research Institute (SRI) Symposium of the [School of Science, Technology, and Engineering Management](#) of [Saint Thomas University \(STU\)](#) and [Miami Dade College \(MDC\)](#). SRI series have research and education objectives providing undergraduate students, master, and phd students as well as research associated and professor hands-on experiences and computational projects. The workshop is dual including both in person participation (mostly for STU-MDC students and professors) and online participation (including students and professors from abroad). It covers multidisciplinary topics in science ranging from modern techniques of molecular biology, statistical analysis, mathematical modeling, computational physics, bioinformatics, nano sciences and a large variety of characterization techniques to the social, legal, and educational implications of these techniques.

For the third time, this year, the memories of the SRI series will be hosted online by the [MOL2NET](#) conference series. It means, that all communications will be published online at [Sciforum](#) platform. All presentations will be peer reviewed and a DOI number will be assigned. MOL2NET conference of Sciforum is one of the platforms with international recognition for scientific exchange. The variety of topics included within this new edition acknowledges the inter-disciplinary, teamwork, and networking of modern science. Feel free to contact researchers and participants to foster more collaboration efforts.

Last Edition

The last edition SRI-09 received a total of 27 submissions. Special thanks to our partner [Miami Dade College \(MDC\)](#) and the grant [STEM-SPACE P03C1160161](#). The received contributions provided funding for equipment, logistics, and minor activities associated with the SRI. Ten speakers from and local Technological companies came to St. Thomas to share their wisdom as an in kind contribution. During this last edition, students exchanged experiences with researchers from [University of Miami](#), [Florida International University \(FIU\)](#) and also from [NASA](#). To see another previous edition you can follow the link [SRI-08](#) and witness the quality of 38 submissions with a total of 21 publications.

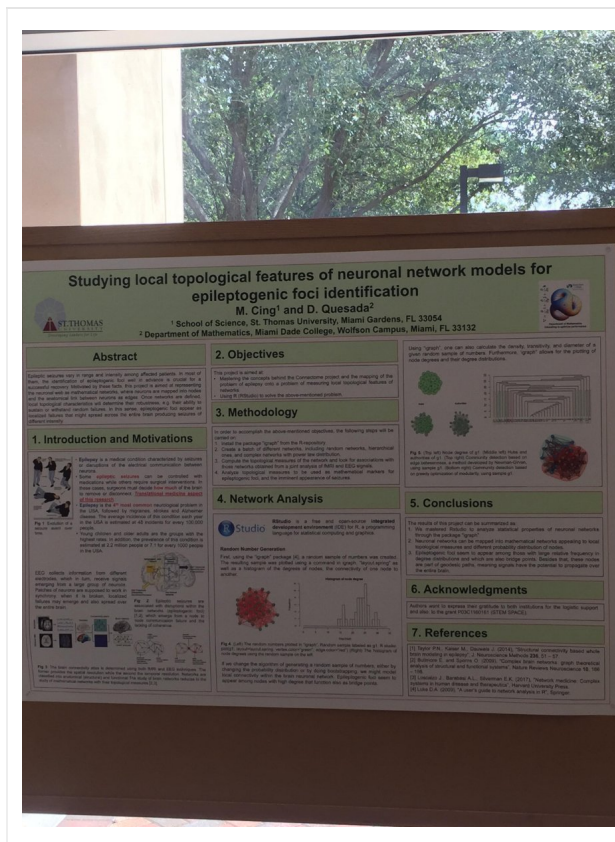

MDPI Associated Journals Issue (Organized by SRI Committee Members)

In parallel, the members of committees and/or authors are encouraged to edit special issues for different journals of the editorial MDPI (<http://www.mdpi.com/>). The special issue is now in call for papers, submissions are welcome in *a posteriori*, in parallel, or totally independently from the conference. Manuscripts should be submitted online at www.mdpi.com by [registering](#) and [logging in to this website](#). In order to send a proposal of associated workshop and/or special issue contact the chairperson of the conference Prof. [González-Díaz H.](#) Please, check the following special issue associated to our conference:

applied sciences

Applied Sciences (Call for Papers): Special issue entitled: **Complex Networks and Machine Learning: From Molecular to Social Sciences**. Journal Applied Sciences (ISSN 2076-3417), **JCR IF = 1.679**. Topics: machine learning, complex networks, systems biology, protein networks, metabolic networks, ecosystems, artificial neural networks, social, financial, and legal networks. Editors: Prof. **D. Quesada**, Director of Dept. of Mathematics, Miami Dade Colege (MDC), Miami, FL, USA. Prof. **M. Cruz-Monteagudo**, West Coast University, Miami Campus, FL, USA, FCT Fellow University of Porto Portugal, Consultant, Center for Computer Science (CCS), University of Miami, FL, USA. Prof. **González-Díaz H.**, IKERBASQUE Professor, Dept. of Organic Chemistry II, University of the Basque Country UPV/EHU, Leioa (Great Bilbao), Biscay, Spain.

Thank you for your support!

(YEAR-ROUND PUBLICATION, OPEN ACCESS, AND FREE OF CHARGE)

USINEWS-02; US-IN-EU Worldwide Science Workshop Series is aimed to become a reference international science workshop series. This workshop is associated to MOL2NET-04 International Conference Series on Multidisciplinary. In fact, the publication of communications is at the online platform SciForum maintained by the editorial MDPI, Basel, Switzerland. After publication of papers is closed we shall open the online platform and the author will be able to post online comments and/or answers to comments in this workshop/section and also in the other general sections and/or >10 international workshops of the MOL2NET conference (many of them also run both online and in person). To see a detailed schedule of this workshop/section and all the conference follow this link[MOL2NET workshops schedule]. The University of Minnesota, MN, USA, the NSIT Netaji Subhas Institute of Technology, New Delhi, India, the University of Basque Country (UPV/EHU) and IKERBASQUE, Basque Foundation for Sciences, Biscay, Spain, are the main host institutions (see chairpersons below).

USINEWS focused on the interchanges of ideas among researchers working in U.S., Europe, India, etc. with colleagues from other countries across the world. The foundations of this workshop are in the multiple collaborations of Professors / Researchers of Indian like Dr. Suhbansh C. Basak, University of Minnesota, USA, Prof. Ashok. K. Dubey, NSIT Netaji Subhas Institute of Technology, New Delhi, India, Prof. Kunal Roy, Jadavpur University, Dr. Shameer Khader, Philips Healthcare, Cambridge, MA, USA, with their international colleagues at Virginia Commonwealth University (VCU), University of Basque Country (UPV/EHU), IKERBASQUE, Basque Foundation for Sciences, and many other institutions in US-EU, India, and other countries.

The workshop is inspired on the Indo-U.S. Workshops series organized by Dr. [Suhbash C. Basak](#) during many years, as example of multicultural melting pot devoted to promote interdisciplinary collaborations in science. The works on this initiative started in 1990; the first event was organized in 1998 at Visva Bharati University, West Bengal, India. The Lecture Series was mainly to train young scholars. The third line of events was geared to benefit the South American scientists and young scholars. Two events have been held in Colombia. Some reports of these workshops are: [\[J. Chem. Inf. Comput. Sci., 1999, 39 \(2\), pp 179–179\]](#), [\[J. Chem. Inf. Comput. Sci., 2001, 41 \(3\), pp 479–479\]](#), [\[J. Chem. Inf. Model., 2006, 46 \(1\), pp 1-1\]](#). These workshops included:

- (1) Indo-US Workshop on Mathematical Chemistry Series, beginning in 1998 in India and having six more events both in USA and India
- (2) Indo-US Lecture Series on Discrete Mathematical Chemistry, four events mainly focusing on the training of young scholars.
- (3) Mathematical Chemistry Workshops of the Americas (involving countries of North and South Americas)

This INDOWSCI workshop is associated to [MOL2NET-04](#) International Conference on Multidisciplinary Sciences, MDPI Sciforum, Switzerland, HQ UPV/EHU, Bilbao, Spain. Consequently, it aims to promote results on Multidisciplinary Science (All Areas), including but not limited to, the following **topics of interest**: Chemistry (All areas), Mathematics (Applied), Physics (Applied), Materials Science, Nanotechnology, Biology and Life Sciences (All areas), Medicine, Biomedical Engineering, Education, along with Computer Sciences, Data Analysis, Statistics, Artificial Intelligence, Deep Learning, Bioinformatics, Systems Biology, and Complex Networks Sciences. See the following note to authors on **topics outside the scope** of the conference and associated workshops [\[Note on topics\]](#).

Steps for Participation

- (0) Register, Sign in/Login, to Sciforum platform [\[Sciforum login\]](#)
- (1) Submit the title/abstract to workshop [\[Submit New Abstract\]](#) (do not upload paper here), until **2018-Dec-20**
- (2) Download template doc and prepare your communication [\[Template File\]](#), until **2018-Dec-20**
- (3) Wait for Sciforum abstract acceptance email, until **2018-Dec-20**
- (5) Follow the link in the email or login to upload paper (doc and pdf format) until **2018-Dec-20**
- (4) Wait for paper acceptance and publication emails (follow link to proofread your paper)
- (5) Communicate with chairpersons if corrections are necessary
- (6) Login to post comments, questions, or answers in a section or in one of the MOL2NET workshops (**2018-Dec-20 to Dec-25**)
- (7) Contact chairpersons if you need author (publication) or attendance certificate (posting) of MOL2NET sections or workshops

Notes to Participants

Before to submit your communication recommend to download and use the [\[Template File\]](#) to write your communication; we strongly recommend you to read carefully the following **notes to participants** about publication model, copyright, authors responsibilities, etc Firstly, be aware that the works published here belongs to two main modalities preliminary communications or comments on previous works.

Preliminary communications are not post-print journal papers. In this sense, committee and/or external reviewers check only scope and apparent scientific soundness. They have the same editorial process than for an online [Preprint](#) service. Therefore, all works receive doi number and are indexed in databases (GoogleScholar, Publons, etc.).The works may receive also comments from registered participants (public post-publication review). The authors are encouraged to submit their works to a peer-reviewed scientific journals of MDPI or other editorials during or after finalization of the conference, as per [SciForum copyright rules](#).

Comments on previous works are short notes to comment about the more interesting points, highlights, etc. of works previously published by the authors or other groups. In this case, committee and/or external reviewers check also only scope and apparent scientific soundness. The works may receive also comments from registered participants (public post-publication review).

In any case, **it is the authors responsibility**, to ensure the veracity of the contents, checking similarity to other works, and carry out a proper citation of previous works. The committee is not responsible of this previous aspects in this publishing modality. In this sense, we strongly recommend the authors to use online text-similarity checking services to avoid any form of plagiarism or copyright violation. The authors may be requested to modify the communication (re-write their texts) in the case that high similarity is detected and reported to the committee. In these cases, the manuscript could be put on standby or withdrawn temporarily until the authors re-submit the proper version. The authors are also allowed to submit short reviews, comments, letters, or discussions of papers already published if they guarantee sufficient difference to previous public contents.

BIOCHEMPHYS-01: International Franco-Tunisian workshop on Med. Chem., Biotech., and Phys. Chem., Cnam, Paris, France, 2018

***Submission Date Extended:** We are pleased to announce that the both abstract submission and article submission dates has been extended up to **December 15, 2018**, in response to numerous requests and due to the increased interest in Biochemphys 2018. You can still register at the [Sciforum website](#) to submit your abstracts and/or login to upload your communications.

Dear colleagues worldwide,

Greetings from BIOCHEMPHYS-01!

You are cordially invited to participate to the first International Franco Tunisian Workshop on Medicinal Chemistry, Biotechnology, and Physical Chemistry at Cnam, Paris, France, 2018. This scientific workshop is organized by Professors and Researchers of the [Laboratory of Molecular Chemistry \(CMGPCE\)](#) and the [Laboratory of Systems & Applications of Information & Energy Technologies \(SATIE\)](#) (at Cnam, Paris, France) with their Tunisian colleagues who participate to the [UTIQUE Hubert Curien Program \(PHC UTIQUE managed by Campus France and CMCU\)](#). The Tunisians partners are Professors and Researchers at the [Laboratory of interfacing and advanced materials \(LIMA, Monastir University\)](#), [Biotechnology Center of Sfax \(CBS\)](#), the [Higher Institute of Biotechnology of Sfax \(ISBS\)](#) and Unité de Recherche "Physique des Matériaux Isolants et Semi-isolants" (PMISI, Faculty of Sciences of Sfax).

The host institution, [Conservatoire national des arts et métiers, Cnam](#), is a higher education and research institution dedicated to adult continuing education. It holds a unique, original position in the French educational landscape with nearly 150 educational centers in France and a large presence worldwide. Since its foundation in 1794, Cnam has closely combined academic knowledge and professional skills with a strong relationship with the industry. In a context marked by new economic and societal expectations, the Research in Cnam is very dynamic, and guaranty a high-level scientific positioning. It covers a large variety of domains varying from chemistry, biology, bio-informatic to physics, mathematics and material science.

This workshop series is planned to be held each academic term an. It is devoted to fostering both education and research in multidisciplinary sciences with emphasis in Molecular Sciences (Organic and Medicinal Chemistry), Physical-chemistry, Biochemistry, Nanotechnology, Materials Sciences, Cheminformatics, Physics, Researchers and students from other institutions around the world are welcomed. All accepted papers receive a DOI number and are published online before being published at the end of year on the conference proceedings book with ISSN and ISBN numbers.

Both participation and publication are totally free of cost!!! No charges will be paid neither by the authors, nor by their institutions.

The BIOCHEMPHYS-01 is in large measure targeted for graduate and PhD students, chemists and bioinformaticians researchers and scientists involved in areas related to Medicinal Chemistry, Cheminformatics and /or Bioinformatics, Biophysics, Physics, Protein Engineering, Biosensors and Chemical Sensors, Biomarker detection, Modelling and Simulation. Research work related with the use of new materials for photocatalytic applications and energy storage are also welcome.

Steps for Participation to BIOCHEMPHYS workshop

- (0) Register, Sign in/Login, to Sciforum platform [[Sciforum login](#)]
- (1) Submit the title and abstract in the BIOCHEMPHYS workshop (do not upload paper here) [[Submit New Abstract](#)]
- (2) Wait for Sciforum abstract acceptance email, follow the link, and/or login to upload paper (doc and pdf format)
- (3) Download template doc and prepare your communication [[BioChemPhys Template](#)]
- (4) Wait for paper acceptance and publication emails (follow link to proofread your paper, ASAP after upload)
- (5) Communicate with chairpersons if corrections are necessary, including past editions
- (6) Log in to post comments, questions, or answers in a section or one of the workshops
- (7) Contact chairpersons if you need author (publication) or attendance (posting) certificate for conference and/or workshops (all year)

Publications are expected to be short papers consisting of 2-3 pages summarizing the results of the research project, PhD thesis, MSc work, or Degree dissertation, etc. The deadline for the abstract submission is November 15, 2018 (extended up to **December 15, 2018**). The comments on previous works as short notes to comment about the more interesting points, highlights, etc. of works previously published by the authors or other groups are also accepted. In this case, committee and/or external reviewers also only check the scope and apparent scientific soundness.

Review and Publication

This type of communications are not post-print journal papers. In this sense, committee and/or external reviewers check only scope and apparent scientific soundness. They have the same editorial process as for an online [Preprint](#) service. Therefore, all works receive DOI numbers and are indexed in [GoogleScholar](#). The works may also receive comments from registered participants (public post-publication review). The authors are encouraged to submit their works to peer-reviewed scientific journals of MDPI or other editorials during or after finalization of the conference, as per [SciForum copyright rules](#). After publication of papers is closed, we shall open the online platform, and the authors (professors, researchers, and students) will be able to post online comments, questions, and/or answers to comments in this workshop/section and also in the other general sections and/or >10 international workshops of the MOL2NET conference. (Many of them also run both online and in person.)

Authors liability

We strongly recommend that you carefully read the following **notes to participants** about publication model, copyright, authors' responsibilities, etc. Be aware, **it is the author's responsibility** to ensure the veracity of the contents (checking similarity to other works) and to carry out a proper citation of previous works. The committee is not responsible of these aspects in this publishing modality. We therefore strongly recommend the authors to use online text-similarity checking services to avoid any form of plagiarism or copyright violation. The authors may be requested to modify the communication (re-write their texts) in the case that high similarity is detected and reported to the committee. In these cases, the manuscript could be put on standby or withdrawn temporarily until the authors re-submit the proper version. The authors are also allowed to submit short reviews, comments, letters, or discussions of papers already published if they guarantee sufficient difference to previous public contents.

05. WCUCW-02: West Coast University Capstone Workshop, WCU, Miami, USA, 2018

WCUCW-02

NOTES: We suggest you to **download and use** the [Template File] to write your communication. We also strongly recommend you to **read carefully** the [Instructions to authors] about publication model, copyright, authors responsibilities, etc.

Submit Now

[\[CLICK HERE TO SUBMIT NEW ABSTRACT\]](#)

Dear colleagues worldwide, we invite you to join us at WCUCW-02 West Coast University Capstone Workshop, 2018, Miami, FL, USA. This is the Capstone workshop for **West Coast University (WCU)**, Miami, FL, USA. This workshop series held each academic term is devoted to fostering both education and research in multidisciplinary sciences. Professors, researchers, post-docs, Ph.D., M.Sc. and degree students worldwide are invited to submit their contributions to be published online in Sciforum platform, Basel, Switzerland, **open access and totally free of cost**. We specially welcome students completing their General Education courses at WCU. These capstone courses students form groups of three and take on the roles of scientist, medical researcher, or public health professional, all of them approaching an assigned topic from their field of expertise. They are each required to devise a study on their topic, pretend to conduct it, generate logical data to support a hypothesis, write an academic paper sharing their findings, and defend their data in a presentation. The workshop education goals focus on professors and students in the WCU Miami campus Capstone course. However, we also welcome researchers and students from other nationwide WCU campuses and researchers from other institutions around the world. The Capstone workshop is associated with **MOL2NET-04** International Conference on Multidisciplinary Sciences, MDPI Sciforum, Switzerland, HQ UPV/EHU, Bilbao, Spain. It will therefore **run both online and in person**. The workshop runs online at the platform **SciForum** maintained by the editorial **MDPI**, Basel, Switzerland. It runs in person at WCU, Miami campus, during the Capstone course. The **topics of interest** include, but are not limited to, the following: Multidisciplinary Science (all areas), Health Science (all areas), Chemistry (all areas), Biology and Life Sciences (all areas), Environmental Science (all areas), Social Sciences (all areas), Biomedical Engineering, Mathematics (Applied), Data Analysis, Education. See the following note to authors on **topics outside the scope** of the conference and associated workshops [[Note on topics](#)].

Steps for Participation

- (0) Register, Sign in/Login, to Sciforum platform (all year)
- (1) Submit the title and abstract, select a section or workshop (do not upload paper here)
- (2) Wait for Sciforum abstract acceptance email, follow the link, and/or login to upload paper(doc and pdf format)
- (3) Download template doc and prepare your communication [[Template File](#)]
- (4) Wait for paper acceptance and publication emails (follow link to proofread your paper, ASAP after upload)
- (5) Communicate with chairpersons if corrections are necessary, including past editions (all year)
- (6) Log in to post comments, questions, or answers in a section or one of the workshops
- (7) Contact chairpersons if you need author (publication) or attendance (posting) certificate for conference and/or workshops (all year)

Notes to Participants

To see a detailed schedule of this workshop/section and of the entire conference follow this link: [[MOL2NET workshops schedule](#)]

Preliminary communications are not post-print journal papers. In this sense, committee and/or external reviewers check only scope and apparent scientific soundness. They have the same editorial process as for an online **Preprint** service. Therefore, all works receive **DOI** numbers and indexed in **GoogleScholar**. The works may also receive comments from registered participants (public post-publication review). The authors are encouraged to submit their works to peer-reviewed scientific journals of MDPI or other editorials during or after finalization of the conference, as per **SciForum copyright rules**.

Comments on previous works are short notes to comment about the more interesting points, highlights, etc. of works previously published by the authors or other groups. In this case, committee and/or external reviewers also only check the scope and apparent scientific soundness. The works may also receive comments from registered participants (public post-publication review). After publication of papers is closed, we shall open the online platform, and the authors (professors, researchers, and students) will be able to post online comments, questions, and/or answers to comments in this workshop/section and also in the other general sections and/or >10 international workshops of the MOL2NET conference. (Many of them also run both online and in person.)

We strongly recommend that you carefully read the following **notes to participants** about publication model, copyright, authors' responsibilities, etc. Be aware, **it is the author's responsibility** to ensure the veracity of the contents (checking similarity to other works) and to carry out a proper citation of

previous works. The committee is not responsible of these aspects in this publishing modality. We therefore strongly recommend the authors to use online text-similarity checking services to avoid any form of plagiarism or copyright violation. The authors may be requested to modify the communication (re-write their texts) in the case that high similarity is detected and reported to the committee. In these cases, the manuscript could be put on standby or withdrawn temporarily until the authors re-submit the proper version. The authors are also allowed to submit short reviews, comments, letters, or discussions of papers already published if they guarantee sufficient difference to previous public contents.

MDPI Journal Special Issue

In parallel, members of committees and/or authors of different workshops are encouraged to edit special issues for different journals of the editorial MDPI (<http://www.mdpi.com/>). This year WCUCW-02 shall be associate to the one special issue. The authors of papers submitted to the workshop are encouraged to complete their works in full version papers and submit to the journal as well. Please, check details about topic of the issue. Take also into consideration that publication in the workshop is free of charge but article processing charges may be levied to authors of the journal. The special issue is now in call for papers, submissions are welcome in *a posteriori*, in parallel, or totally independently from the conference. Manuscripts should be submitted online at www.mdpi.com by [registering](#) and [logging in to this website](#). The details of the issue are:

applied sciences

Applied Sciences (Call for Papers): Special issue entitled: [Complex Networks and Machine Learning: From Molecular to Social Sciences](#). Journal Applied Sciences (ISSN 2076-3417), **JCR IF = 1.679**. Topics: machine learning, complex networks, systems biology, protein networks, metabolic networks, ecosystems, artificial neural networks, social, financial, and legal networks.

I Simpósio Paraibano de Estudos Químicos de Produtos Naturais

De 09 a 11 de outubro

Auditório da reitoria da UFPB

[\[CLICK HERE TO SUBMIT NEW ABSTRACT\]](#)**Welcome Message from Chairs**

Dear all we are glad to welcome you to a new edition of the series of Workshops on Research in Sciences Applied to Medicinal Chemistry (WRSAMC) 2018. This workshop series is organized by researches from Department of Chemistry, Programa de Pós-Graduação em Produtos Naturais e Sintéticos Bioativos (PgPNSB - Postgraduate Program in Natural Products and Synthetic Bioactive) and Hospital Universitário of [Universidade Federal da Paraíba \(UFPB\)](#). This year, as well as last year, WRSAMC is dedicated to the PgPNSB 40th Anniversary. More specifically, this year WRSAMC hosts the first symposium in Paraiba for chemical studies of natural products.

1st Paraiban Symposium on Chemicals for Natural Products (I SIMPEQPN)

The 1st Paraíba Symposium on Chemicals for Natural Products (I SIMPEQPN) will take place from 9 to 11 October 2018 in the Auditorium of the Rectory of the Federal University of Paraíba, in João Pessoa. To celebrate the 40th anniversary of PPGNSB, the scientific committees and organizers of I SIMPEQPN are developing a versatile scientific program around the current and exciting topic: Chemicals for Natural Products. The symposium will have as main theme the chemical studies of natural products, among them: spectroscopic techniques, chromatographic, synthesis, quality control, among others. Guests from the institution and outside will present / discuss aspects related to natural history, cultivation, breeding, quality control, ethnobotany, ethnopharmacology, phytochemistry, pharmacology, among other research areas, conferences and lectures that will take place during the three days of the event. There will also be poster sessions as well as oral presentations. Participants will receive certificates and abstracts of papers will be published in online proceedings. -150 participants; -Presentations in posters and oral; -Speeches; -Conferences. Please, check official [SIMPEQPN](#) event page in Facebook as well.

I Simpósio Paraibano de Estudos Químicos de Produtos Naturais (I SIMPEQPN)

O I Simpósio Paraibano de Estudos Químicos de Produtos Naturais (I SIMPEQPN) acontecerá de 9 a 11 de outubro de 2018 no auditório da Reitoria da Universidade Federal da Paraíba, em João Pessoa. Para celebrar o 40º aniversário da PPGNSB, os comitês científicos e organizadores do I SIMPEQPN estão desenvolvendo um programa científico versátil em torno do atual e excitante tema: Estudos Químicos de Produtos Naturais. O simpósio terá como tema principal os estudos químicos de produtos naturais, entre eles: técnicas espectroscópicas, cromatográficas, síntese, controle de qualidade, entre outros. Convidados da instituição e externos apresentarão/debaterão aspectos relacionados à história natural, cultivo, melhoramento, controle de qualidade, etnobotânica, etnofarmacologia, fitoquímica, farmacologia, entre outras áreas de investigação, em conferências e palestras que ocorrerão ao longo dos três dias de evento. Haverá também apresentação sessões de pôsteres, além das apresentações orais. Os participantes receberão certificados e os resumos dos trabalhos serão publicados em anais online. -150 participantes; -Apresentações em pôsteres e oral; -Palestras; -Conferências.

I SIMPEQPN Coordenação Geral

[Prof. Marcus Tullius Scotti](#) (Coordenador Docente), Departamento de Química, Centro de Ciências Exatas e da Natureza, Universidade Federal da Paraíba - Campus I, Cidade Universitária, CEP: 58.051-900 João Pessoa - Paraíba - Brasil, Emails: mtscotti@gmail.com, msscotti@ccae.ufpb.br ,

Prof. Vicente Carlos de Oliveira Costa (Vice-coordenador Docente), [Instituto de Pesquisa em Farmacos e Medicamentos](#), Universidade Federal da Paraíba - Campus I, Cidade Universitária, CEP: 58.051-900, João Pessoa - Paraíba - Brasil.

Msc. Ana Rita Rodrigues de Almeida Silva (Coordenadora Discente)

Msc. Laisla Rangel Peixoto (Vice-coordenadora Discente)

WRSAMC - SIMPEQPN - Mol2Net Association

Both WRSAMC workshop series and SIMPEQPN symposium are associated to [MOL2NET-04](#) International Conference on Multidisciplinary Sciences, ISSN: 2624-5078, ISBN: 978-3-03842-820-6, MDPI SciForum, Basel, Switzerland, 2018. Consequently, the present page of the conference will serve as both: (1) publication media for communications, posters, or plenary conferences (videos) and also (2) online discussion media to post comments, questions, and answers about the workshops, respectively. Participants on both events, **online discussions** at the end of the year and workshop along the year, are entitled to receive attendance certificates from both the WRSAMC workshop and the MOL2NET conference. The WRSAMC will be held in person however, the workshop will remain **open all the year for submission and publication of communications** online via the platform SciForum.

Notes to Participants

Submission process has the following steps: 1-Registration, 2-Submission of abstract, 3-Wait for abstract acceptance email, 4-Upload of full communication, 5-Wait for communication approval/publication emails. After you successfully [register](#), you can submit your paper online.

Communications are expected to be short papers 1-3 pages. Please, download and use the following template [WRSAMC template](#) to submit your communication.

Be aware:

on step 1, you should select MOL2NET 2017, International Conference on Multidisciplinary Sciences, 3rd edition (Conference).

on step 2, you should select WRSAMC2017 workshop in research sciences applied in medicinal chemistry.

Before to submit your work be aware that the editorial publication model of this workshop is similar to a [PREPRINT](#) service. It means that works presented here have to be considered only as preliminary communications and not as final post-print versions of journal papers. In this sense, even when all the works published are revised by at least one member of the committee and/or external reviewer this level of revision checks only apparent scientific soundness and general scientific interest.

In a second level, collective post-publication review, the works published may receive comments (published in the form of posts) from all the participants registered in the conference. The authors are prompted to use all these opinions to write the full versions of their works and submit them to publication in a peer-reviewed scientific journals according to SciForum copyright rules. Some workshops will use specialized services to checked for possible similarity. In any case, **the authors are the only one responsible** for the veracity of the contents, checking similarity to other works, and proper citing or under-citing of previous works, etc.

WRSAMC Workshop Series Chairs

Welcome Message

EJIBCE-02, UP, PORTO, PORTUGAL, 2018

About The Meeting of Young Researchers in Structural Computational Biology ([EJIBCE 2018](#)), see last edition ([EJIBCE 2017](#)), aims at bringing together the Portuguese scientific community working in the field in a free-of-charge meeting, to provide a forum for discussion and sharing with no strings attached. This Sixth edition builds on the success of previous editions in Porto, Lisbon, Coimbra, Oeiras and Coimbra, which gathered ca. 60 participants and had over 10 oral communications in each edition.

Mission & Objectives

Given the current economic situation in Europe, and particularly in Portugal, it is increasingly harder to obtain funding and to have an optimistic approach to science and collaborations. Besides, the recent austerity measures put in place by the Portuguese government led many researchers to join groups and institutes abroad, and eventually lose touch with the Portuguese scientific community and developments. After obtaining a doctoral degree or finishing a postdoctoral appointment, many Portuguese scientists abroad look back to their country looking for an opportunity to continue their careers and contribute to the development of Portuguese science. Others wish to remain abroad, but at the same time reach out to the Portuguese community and cultivate stronger ties to its researchers. However, what groups are there on Computational Structural Biology? What do they actually focus on? Are they open to collaborations?

This meeting was created in order to answer these and other similar questions. Its main goal is to provide a simple no-frills environment where Portuguese researchers in Computational Structural Biology, active both in Portugal and abroad, can meet and get to know each other's research and ambitions. Ultimately, we hope that in doing so, we will be able to stimulate new collaborations and broaden the horizons of the Portuguese community of Computational Structural Biologists.

EJIBCE 2018 builds up on the format of previous editions, focusing on a small number of oral communications interspersed with several breaks to encourage discussion and exchange of ideas. Throughout the day, 12 researchers will present their results. Seven will be selected from the submitted abstracts by the Scientific Committee, based on the quality and originality of the work, and will be given 15 minutes to speak, followed by a short discussion. The remaining 5 oral communications will be delivered by invited keynotes, who will be given 25 minutes to speak plus 10 for discussion.

Invited Keynotes

- Diogo Santos-Martins (Scripps Research Institute, California, USA)
- Ana Newton (Yale University, USA)
- João Henriques (University of Copenhagen, Denmark)
- Marta Carneiro (ZoBio B.V., The Netherlands)

- Joana Pereira (Max Planck Institute, Tübingen, Germany)

08. OTISAD-01: Workshop on Intelligent Decision and Optimization of Complex Systems, UANL, Nuevo Leon, Mexico, 2018

OPTISAD-18

[\[CLICK HERE TO SUBMIT NEW ABSTRACT\]](#)

Welcome Message

Dear colleagues, we are pleasant to invite you to the international workshop OPTISAD'18, Workshop of the Thematic Network to Support The Intelligent Decision and Optimization of Complex and Large Scale Systems, Conacyt, Mexico. The topics of interest include Intelligent Optimization, Multi-criteria Decision Making, and Fuzzy Sets and Systems and Applications. The topics also include the application in the previous areas other methods like Machine Learning, Statistics, Artificial Intelligence, Artificial Neural Networks, Deep Learning, Big Data analysis, etc. In addition, the workshop focus on the applications of all kind of computational techniques to Decision-making in the Optimization of large systems in Omics, Biotechnology, Systems Biology, Chemical Biology, Chemical Engineering, Medicine, Social Sciences, Education, Economics, Industry, Transport, Ecology and Environmental Sciences, etc. We suggest you to **download** the [\[Template File\]](#) to write your communication and to **read carefully** the [\[Instructions to authors\]](#) about publication model, copyright, authors responsibilities, etc.

Chairperson:

Dr. [Fernando López Irarragorri](#), Professor at the Autonomous University of Nuevo Leon (UANL), México.

Committee:

Dr. Igor Litvinchev, Professor at the Universidad Autónoma de Nuevo Leon (UANL), México.

Dr. Viacheslav Kalashnikov, Professor at the Instituto Tecnológico de Monterrey (ITESM), México.

Dr. Eduardo R. Fernández González, Professor at the Universidad Autónoma de Sinaloa (UAS) , México.

Dr. Jorge A. Navarro Castillo, Professor at the Universidad Autónoma de Sinaloa (UAS), México.

Dr. Juan C. Leyva López, Professor at the Universidad de Occidente (UdO) , México.

Dra. Laura Cruz Reyes Professor at the Instituto Tecnológico de Ciudad Madero (ITCM), México.

Dr. Rafael A. Espin Andrade, Professor at the Universidad Autónoma de Coahuila (UAC), México.

Dr. Maxim Todorov, Professor at the Universidad de las Americas de Puebla(UDLAP), México

Dr. Rafael Caballero Fernández, Universidad de Malaga (UM), España.

Dra. Rosario C. Garza Rios, Universidad Técnica de la Habana (CUJAE), Cuba.

09. ICBSM-02: International Conference in Bioinformatics, Simulations and Modeling, UTALCA, Talca, Chile, 2017**iCBSM-02**

[REGISTER/LOG IN TO SUBMIT]

Dear colleagues iCBSM-02: Second International Conference in Bioinformatics, Simulations and Modeling, Talca, Chile, 2017. This second version of iCBSM will be held at the Centro de Bioinformática y Simulación Molecular (CBSM) which is associated to the School of Bioinformatics Engineering, Faculty of Engineering, Universidad de Talca, Chile. The conference aim is to maintain and strengthen the research collaborations already initiated with the research groups participating in the previous version of the congress (2015). In addition, it seeks to extend international cooperation networks with research groups located in North America and Europe, mostly in lines of research that are still weak in our group.

Target Audience

This conference is in large measure targeted at graduate and PhD students, bioinformatics engineers, researchers and scientists involved in areas related to Medicinal chemistry, Biophysics, Computational Materials chemistry and Biochemistry, Protein Engineering and Biotechnology and Bioinformatics/Genomics. Available spaces: **80-100 attendants**.

Abstract preparation and submission

The program will be built around talks from accepted abstracts and international/national invited speakers. Abstracts will fall into two categories: oral and poster presentation. We kindly invite all interested graduate and PhD students, as well as postdocs and researchers, to submit your abstracts. The deadline for the abstract submission, either for oral presentation or poster format, is **October 15, 2017**. The Word template for the preparation of abstracts (in **english**) can be downloaded from the link: [Abstract_iCBSM-2017.doc](#), and these must be submitted via the link [\[Submit New Abstract\]](#).

MOL2NET DOI Indexing and MDPI Journals Issues Publication

This year iCBSM is associated to [MOL2NET International Conference Series on Multidisciplinary Sciences](#), MDPI Sciforum, Basel, Switzerland, UPV/EHU, Bilbao, Spain. In this sense, all the abstracts and video conferences of the iCBSM conference will be published on the Sciforum site in open access modality totally free of charge and indexed with a doi number.

In parallel, the authors are welcome to send full written versions of their papers or talks to some of the special issues edited by members of the MOL2NET committee for different journals of the editorial MDPI (<http://www.mdpi.com/>). Some of these special issues are now in call for papers, submissions are welcome *a posteriori*, in parallel, or totally independently from the conference. Manuscripts should be submitted online at www.mdpi.com by [registering](#) and [logging in to this website](#). Once you are registered, [click here to go to the submission form](#). In order to send a proposal of special issue contact the chairperson of the conference Prof. [González-Díaz H.](#)

IWMEDIC-06 is the VI International Workshop on Medical Imaging, Medical Coding, and Clinical Data Analysis of University of Coruña (UDC). The IWMEDIC-06 workshop will be held in person and/or online (video conferences) at the University Hospital Complex of A Coruña, Hospital Médico Quirúrgico San Rafael, and Faculty of Computer Sciences, UDC in the summer of 2018. The chairman of this workshop is Prof. Alejandro Pazos; Ph.D., M.D., Chair and Director of Department of Computer Sciences, UDC, Coruña, Spain and head of the RNASA-IMEDIR group. The topics include, but are not limited to, Medical Imaging Processing, Medical Informatics, Medical Coding, Bioinformatics, Computer Aided Drug Design, Data Analysis, etc. English will be the official language for online publication and presentations, as per MDPI rules, in person or online lectures may be in English, Spanish, or Galician.

Welcome Message

We are glad to invite all colleagues worldwide to participate on the second edition of the workshop IWIMSM-02: Iberoamerican Workshop on Modelization and Simulation Methods, Valencia, Spain, 2018. This is a joint workshop promoted by professors of the Institute of Molecular Science (ICMol) and the Faculty of Pharmacy of the University of Valencia (UV), and the Catholic University of Valencia (UCV), Valencia, Spain. This workshop is associated to the [MOL2NET International Conference Series on Multidisciplinary Sciences](#). MOL2NET (the conference running title) is the acronym of the lemma of the conference: From Molecules to Networks.

Scope and Target Audience

This conference is in large measure targeted at under-graduated, MSc, and PhD students, as well as Professors, Engineers, and Researchers focused on the application of Computational Modelling and Simulation techniques. The fields of application include, but are not limited to, Medicinal Chemistry, Computational Chemistry, Materials and Nanosciences, Bioinformatics, Biotechnology, Systems Biology, Biomedical Engineering, Environmental Sciences, Social Sciences, Scientometrics, etc. The algorithms used may also come from different areas including, but not limited to, Discrete Mathematics, Mathematical Analysis, Complex Networks Sciences, Statistics, Data Analysis, Artificial Intelligence, Machine Learning, Deep Learning, etc.

Abstract preparation and submission

Before to submit your communication we recommend to download and use the [\[Template File\]](#) to write your communication. We also strongly recommend you to read carefully the **notes to participants** at the following page [\[Instructions to authors\]](#) about publication model, copyright, authors responsibilities, etc. Submit your communications in two steps, first submit your title, authors, and abstract here: [\[Submit New Abstract\]](#). Next, upload your communication after abstract approval.

Steps for Participation

- (0) Register, Sign in/Login, to Sciforum platform [[Sciforum login](#)] (All the year)
- (1) Submit the title and abstract, select a section or workshop (do not upload paper here) [[Submit New Abstract](#)] (until **Dec-15**)
- (2) Wait for Sciforum abstract acceptance email, follow the link, and/or login to upload paper, doc and pdf format (until **Dec-15**)
- (3) Download template doc and prepare your communication [[Template File](#)] (until **Dec-15**)
- (4) Wait for paper acceptance and publication emails (follow link to proofread your paper) (Asap after upload)
- (5) Communicate with chairpersons if corrections are necessary, including past editions (All the year)
- (6) Log in to post comments, questions, or answers in a section or one of the workshops (**Dec-15** to **Dec-20**)
- (7) Contact chairpersons if you need author (publication) or attendance (posting) certificate for conference and/or workshops (All the year)

Steering Committee (Chairpersons)

12. LAWSCI-02: Challenges in Law, Technology, Life, and Social Sciences, UPV/EHU, Bilbao, Spain, 2018

LAWSCI-02, UPVEHU, BILBAO, SPAIN, 2018

[LAWSCI01] [SUBMIT HERE] (Select MOL2NET Conference, Section LAWSci)

Dear colleagues worldwide,

We are glad to invite you to participate in the workshop LAWSci, Challenges in Law, Technology, Life, and Social Sciences. This workshop will be held from 25-30 April, **2018**, online at Sciforum platform. This is a workshop associated to the [MOL2NET International Conference Series on Multidisciplinary Sciences](#), MDPI Sciforum, Switzerland, HQ UPV/EHU, Bilbao, Biscay, Spain.

LAWSci workshop series promotes multidisciplinary collaborations and debate in the frontiers of Law, Technology, Life, and Social Sciences. The interaction between bio-science and ICTs has forged great developments in many fields. However, the appreciation of these discoveries is sadly, all too often, accompanied by a lack of understanding of the legal implications. This conference series aims to provide a reference to the various legal avenues that are available for the protection of scientific advances, but also the legal instruments to protect society from unwanted effects. It constitutes a study of some of the legal implications of bioscience and ICT advances, weighing their impact on society and the law's role in shaping that effect.

In this sense, the presentations will be focused on legal trends in different fields covering, but not limited to: patentability in plants and human genomics, clinical procedures' standards, patients' personal data protection, informed consent, regulatory issues in drug discovery, biomedical research legislation, toxicology, medico-legal problems such as healthcare malpractice, medical insurance or ethics in medical practice, software protection in chemo-informatics, bioinformatics, medical informatics, and social sciences, taxes in the biotechnology industry and causality/liability in environmental pollution, criminology, *etc.* The conference will run on-line and free, saving traveling and participation costs (subscriptions, open publication, participation in forum, certificates, *etc.*, are **free of cost**).

Publication Model and Authors Responsibility:

Before to submit your work be aware that the editorial process is the same than for a **PREPRINT** service. Therefore, all works receive doi number and are indexed in databases (GoogleScholar, Publons, *etc.*). However, the works published here are **preliminary communications and not post-print journal papers**. In this sense, committee and/or external reviewers check only scope and apparent scientific soundness. The works may receive also comments from registered participants (public post-publication review). The authors are encouraged to submit their works to a peer-reviewed scientific journals of MDPI or other editorials during or after finalization of the conference, as per [SciForum copyright rules](#).

In any case, **it is the responsibility of the authors**, to ensure the veracity of the contents, checking similarity to other works, and carry out a proper citation of previous works. The committee is not responsible of this previous aspects in this publishing modality. In this sense, we strongly recommend the authors to use online text-similarity checking services to avoid any form of plagiarism or copyright violation. Some workshops in this conference series use specialized services to checked for possible text similarity. For instance, MODEC is using the official account of their organizing university

for URKUND web server. Please, be aware that the authors may be requested to modify (re-write their texts) the communication in the case that high similarity is detected and reported to the committee. In these cases, the manuscript could temporarily withdrawn until the authors re-submit the proper version. The authors are also allowed to submit short reviews, comments, letters, or discussions of papers already published if they guarantee sufficient difference to previous public contents.

Workshop Chairperson

Dr. Aliuska Duardo-Sanchez (Law.Lic., Ph.D. TICs & Legal Sciences)

Welcome Message

Seeking to foster inter-locutions among undergraduate students, masters, students in the Pibid, faculty, researchers in the area of Physics and academic community and extra-academic in a more general way, it is intended to develop the academic week of Physics. During the event, lectures, presentation of papers and round tables are planned. Official Link: [\[Homepage\]](#). Place: [Federal University of Alfenas \(UNIFAL-MG\)](#), Alfenas, Minas Gerais, Brazil. Date: October 24-26, 2018. Please, use the following template [\[AWP-04 Template\]](#) to compose your communication.

Mensagem

Buscando propiciar interlocuções entre discentes da graduação, mestrado, atuantes no Pibid, corpo docente, pesquisadores da área de Física e comunidade acadêmica e extra-acadêmica de forma mais geral, pretende-se desenvolver a semana acadêmica da Física. Durante o evento estão previstas palestras, apresentação de trabalhos e mesas redondas. Lugar: Universidade Federal de Alfenas. Alfenas. Minas Gerais. Brasil. Fecha: 24 a 26 de Outubro, 2018. Página web: [\[Homepage\]](#).

MOL2NET Association

This workshop is associated with [MOL2NET-04](#) International Conference on Multidisciplinary Sciences, MDPI Sciforum, Switzerland, HQ UPV/EHU, Bilbao, Spain. It will therefore **run both online and in person**. The workshop runs online at the platform [SciForum](#) maintained by the editorial [MDPI](#), Basel, Switzerland.

Comité Organizador/Organizing committee:

Prof. Dr. Anibal Thiago Bezerra (lead chairman)

Prof. Dr. Artur Justiniano Roberto Júnior

Prof. Dr. Ihosvany Camps Rodriguez

Prof. Dr. Frederico Augusto Toti

Prof. Dr. Samuel Bueno Soltau

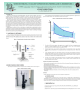

Session Chairs:

Prof. Dr. Aníbal Thiago Bezerra, UNIFAL
 Prof. Dr. Artur Justiniano Roberto Júnior, UNIFAL
 Prof. Dr. Ihosvany Camps, UNIFAL
 Prof. Dr. Frederico Augusto, UNIFAL
 Prof. Dr. Frederico Augusto Toti, UNIFAL
 Prof. Dr. Samuel Bueno Soltau, UNIFAL

MODEC 03 | International Workshop of Natural Products and Agro-Industrial Processes In Ecuadorian Amazon Region

[Workshop Editorial & Full Committee]

MODEC 2018 (Submissions Open)

[SUBMIT TO MODEC HERE!!!](#)

NOTE ON PUBLICATION MODEL: Before to submit your work be aware that the editorial publication model of this workshop is similar to a *PREPRINT* service. It means that works presented here have to be considered only as preliminary communications and not as final post-print versions of journal papers. In this sense, even when all the works published are revised by at least one member of the committee and/or external reviewer this level of revision checks only apparent scientific soundness and general scientific interest. In a second level, collective post-publication review, the works published may receive comments (published in the form of posts) from all the participants registered in the conference. The authors are prompted to use all these opinions to write the full versions of their works and submit them to publication in a peer-reviewed scientific journals according to *SciForum* copyright rules. In any case, the authors are the only one responsible of the veracity of the contents, checking similarity to other works, citing properly previous works, etc.

MODEC2018, International Workshop on the Natural Products and Agro-Industrial Processes in Ecuadorian Amazon region

Welcome to the MODEC2018 workshop. This is [Amazon State University's \(UEA\)](#) first workshop, devoted to the promotion and application of the Multidisciplinary Sciences to the development of natural products and agro-industrial processes in Ecuadorian Amazon regions. This workshop runs both online and on location at the university. The online portion of the workshop is powered by the SciForum platform of MDPI, hosted by the [MOL2NET International Conference Series on Interdisciplinary Sciences](#).

Additionally, the physical component of the workshop is also scheduled to run through the Department of Earth Sciences (Facultad de Ciencias de la Tierra) at Universidad Estatal Amazónica (UEA), Puyo, Ecuador. Please, contact the workshop chairmen for further details. Paper submission is already open and the publication of papers for conference purposes in SciForum platform is free of cost.

Publications are expected to be short papers consisting of 1-3 pages. Be aware that the submission is a two step process. First you must register and submit a tentative title, authors list and abstract. Next, you need to submit your full publication upon acceptance of the abstract by the committee. Full publications will be published online, free of charge, with doi number as soon as possible after acceptance. If you are planning to submit a publication, please use the following template, [MODEC Template.doc](#). Click on the following link to register and/or submit your communication [Submit to MODEC here](#).

All submitted papers should fall under one of the following categories:

- Computational chemistry, Cheminformatics, and Bioinformatics
- Mathematical modeling
- Organic and Functional Foods
- BioTrade: Natural Products of the Amazon
- Production systems with agro-business and forestry purposes or biomass for energy purposes
- Environmental impacts
- Agro-industrial development processes

Schedule:

- Abstracts submission until 2018-Oct-01, Envío de los abstract hasta el 01 de octubre de 2018.
- Abstract acceptance until 2018-Oct-03.
- Communications submission until 2018-Nov-01.
- Communications acceptance until 2018-Nov-15.
- Communications publication until 2018-Nov-30.

Please, click the following link to read the editorial paper with welcome message and call for papers as well as the full description of the workshop with details of topic, short biographies of the members of the committee, contact details, personal pictures, etc., [\[Workshop Editorial & Full Committee\]](#)

Chairperson

Prof. [Amaury Pérez Martínez](#) received his Bs. in Chemical Engineering in 2002, his MSc degree in Chemical Engineering Processes and Analysis in 2007, and his PhD degree in Chemical Engineering in 2013. He has worked in the development of new technology in the Chemical Industry. Currently, he is an Assistant Professor of Agro industrial Engineering at Amazon State University (UEA) in Puyo, Ecuador. His research interests include philosophy of process design, simulation, and sustainable development

Institution: Universidad Estatal Amazónica, Ecuador
